PROFESSIONAL EXPERIENCE

Design Head | SwapSo.io | Blockive Deduction Academy Pvt. Ltd (Dec '23-Feb '24)
*Funded by the **Startup India Seed Fund Scheme** | Part of **Microsoft's startups** founders Hub | **IOE** Incubation by **SINE**, IIT Bombay*

- Rebranded from "The Blockchain Hive" to "**SwapSo**", creating new brand logo & **10+** asset marketing kit, enhancing brand identity
- Led end-to-end **editing** and design of **2** professional courses, each consisting **50+** videos & **100+** hours of content, namely **Java** & **SQL**
- Achieved early traction with **300+** users in the **1st** week of beta launch, reflecting effective **content design** & user engagement
- Crafted engaging **intro/outro animation** & enhanced visual assets, boosting viewer retention & course completion rates by **30%**

POSITIONS OF RESPONSIBILITY

Manager | Techfest, IIT Bombay | Asia's largest Sci-Tech Festival | Footfall: **1,80,000+** | Budget: **INR 33M+** (Apr '25-Mar '26)

LEADERSHIP AND MANAGEMENT	- Led a dynamic two-tier team of 170+ students to publicize Techfest in 2500+ colleges and 15+ countries - Spearheaded nationwide network of 20k+ College Ambassadors to amplify digital marketing & brand reach - Ensuring proper functionality and SEO optimization of a 4.6M+ follower social media presence for Techfest
CREATIVES	- Recreated and implemented, a 400K+ visit, mobile-responsive website for CA Program with consistent design - Enhanced the UI/UX for 5M+ users of the Techfest website through user research and iterative wireframing - Optimized user journey of accommodation portal for a 10% boost in payment conversions and improved UX
INTERNATIONAL RELATIONS AND INITIATIVES	- Coordinated with Embassies and Consulates of 70+ countries to promote global techno-cultural exchange - Effectuated the International Summits on GenAI and Industry 4.0 embodying 800+ corporate participants - Initiated International Education Fair with participation from 35+ universities and impacting 30K+ students

Design Team Member | Student Alumni Relations Cell | Under the Leadership of **DEAN ACR** | IIT Bombay (Jun '24-Mar '25)
*Spearheaded a three-tier, **70+** member body organizing **50+** events to bridge the gap between **65K+** alumni and **12K+** students*

- Contributed to **15+** events like Alumination, ASMP & Seekout by comprehensive designing and enhancing SARC's event materials
- Ideated & designed **10+** webpages for the UI/UX of Alumination's & SARC's Centralised website, catering upto **75K+** active users
- Executed Freshers' Orientation & hosted **UPSC Talks**, both sessions engaging **350+** attendees with effective event management

KEY PROJECTS & COMPETITIONS

Real-Time 3D Print Monitoring and Fault Prevention | Institute Technical Summer Project | IIT Bombay (May '24-Aug '24)

- Built a failure detection system for 3D printing, reducing defect rates by over **40%**, using **Reinforced ML** and computer vision
- Trained a powerful computer vision model using an extensive **10k+** images large dataset of commonly occurring print failures
- Achieved a custom trained model with high-performance metrics, with the recall score of **0.93** and a mAP score of around **0.87**
- Implemented cost-effective 3D Print Monitoring, cutting the manual checks by over **60%**, using the **Raspberry Pi4** and OpenCV

Development of Universal Testing Machine | Course Project | Guide: Prof. Kushal Tuckley | IIT Bombay (Aug '23-Nov '23)

- Engineered an **Arduino-based** UTM, applying advanced electronics and automation techniques to achieve **±2%** testing accuracy
- Designed a **15+** part Mechanical model in **Fusion 360**, demonstrating expertise in **3D CAD** software and core design principles
- Programmed control systems using **1000+** lines of code for **real-time** data acquisition, improving the system's efficiency by **40%**
- Integrated **4+** sensors for stress and strain data collection, ensuring consistent measurements with **<5%** variance across trials

IMU-controlled Rockier Vehicle | XLR8 Bot Making Competition | Electronics & Robotics Club | IIT Bombay (Aug '23-Nov '23)

- Developed a hand-controlled truck with a **differential mechanism**, achieving over **90%** accuracy in navigating complex terrains
- Established wireless communication using **ESP-32** microcontroller, along with **L298** motor driver to relay **IMU** data to the bot
- Created a joystick equipped with **ESP-01**, **IMU** and **5+** hardware components, enabling remote control over a **15-meter** range
- Designed the chassis using **AutoCAD** and fabricated it using **4mm** high-strength acrylic sheets, reducing its weight by over **25%**

SKILLS & EXTRA-CURRICULARS

TECHNICAL	Software: Adobe Suite Software, Blender, Davinci, Figma, Arduino IDE, Fusion 360, Solidworks, MS Office Programming languages and Modules: C/C++, Python, LaTeX, SQL, CSS, Numpy, Pandas, Matplotlib, SciPy
CULTURAL	- Directed and edited a 10-minute short movie as a part of the Film General Championship held under NCC - Secured 1st Runner Up position in the Dance General Championship for Hostel-5 in a 20+ membered team - Headed 500+ students as Cultural Secretary of H5, promoting hostel culture through fests & cultural activities Captain of Yellow House, leading a team of over 200 students in school, and directed 20+ cultural events
SPORTS	- Led a team of 60+ members in the inter-company Sports General Championships under NCC, IIT Bombay - Accomplished 20+ hours of training in Kabaddi and Kho-Kho under the guidance of experienced coaches
MISCELLANEOUS	- Spearheaded Pan-India Stem Cell donation drive in collaboration with over 5 NGOs to test 100K+ individuals Mentored a team of 4 in XLR8 Bot making Competition, guiding them in developing a hand-controlled car - Involved in the Curation of 15+ lectures and managed an audience of over 1700 people during the Techfest
